Mobile phone
State / Province

In the next Window paste the provided CSR.

Leave the fields blank if this is a Standard certificate request. In case of multi domain add the required domains.

Upon closing the submitted page. It is possible you may see the error on Venafi page which can be solved with a page refresh.

As the certificate is created, download it with the Action button at the top left corner using option PKCS#7. Zip the downloaded file with Root & Intermediate certificate and attach to the task.
